IMU Sensörler ile

# IMU Sensör Kullanımı

\*Görsel örnek olarak kullanılmıştır.

Projede iki bacağa ayrı ayrı olarak donanım uygulanacaktır.

# IMeasureU

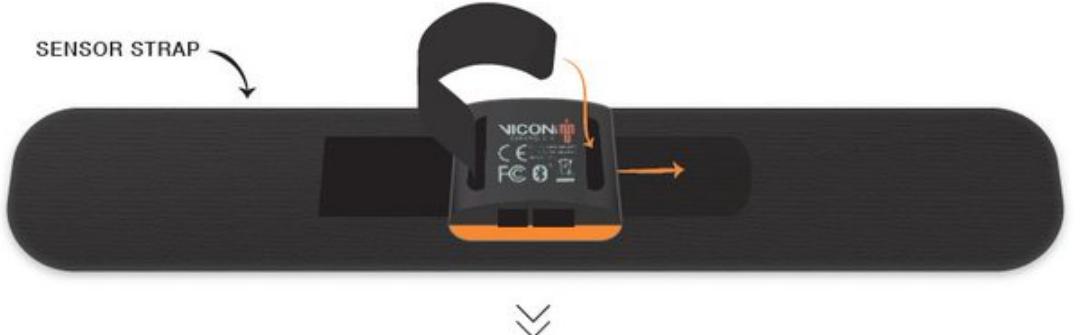

## Attaching the sensors

### Step 1

Feed small Velcro strap through sensor, with the **black side of sensor facing outwards** and the IMU man facing up the same way as the Vicon logo.

Firmly secure sensor in the centre of sensor strap.

### Step 2

Strap sensors onto **inside of each leg**, directly on the medial aspect of the tibia, just above the medial malleolus.

Ensure the sensor number is pointing upwards.
